SHEET 4 OF 4

FIG. 1 is a schematic diagram of a circular device 101, possibly a turbine or engine component. The device features a central circular opening surrounded by concentric rings. A rectangular block 103 is positioned at the bottom center, with arrows A, B, and C indicating flow or movement. Dashed lines 109 connect the block to internal components. Other labeled parts include 102, 104, 105, 106, 107, 108, and 109.
